PROJECT BUDDY
Built by a tradesman, for tradesmen.

Compare Three Quotes

Any project — bathroom, kitchen, roof, deck, or the whole house

Fill in what each quote actually covers. Most quotes do **not** cover the same work — and the missing boxes, not the totals, are where the money leaks.

Scope item	Quote 1	Quote 2	Quote 3	Notes / what's missing
Demolition & removal				
Disposal / dump fees				
Permits				
Materials supplied by the contractor				
Allowances (products you pick, priced in the quote)				
Labour				
Start date				
Finish date				
Payment schedule				
Warranty (in writing?)				
TOTAL				

How to read it: empty boxes are not cheaper — they are missing. Ask each contractor to fill his gaps in writing, then compare the totals again.

WRITE IN THE LINES THAT FIT YOUR JOB — FOR EXAMPLE:

Bathroom: tile & waterproofing, vanity, fixtures
Kitchen: cabinets, counters, sink & faucet
Roof: tear-off, underlayment, shingles or metal, flashing, vents
Deck: footings, framing, decking, railing, stairs
